**LETTER OF COMPLIANCE
FOR
LETTER OF DEFICIENCY
No. WMD 02-20**

Attn: Mr. Karvel J. Feenstra, Supervisor, Plant Engineering & Safety

**Re: Moore North America, Inc.
Dover, New Hampshire
EPA ID # NHD991302597**

Dear Mr. Feenstra:

On April 8, 2002, the Department of Environmental Services, Waste Management Division (DES) conducted an inspection of Moore North America Inc. (Moore). The purpose of the inspection was to determine Moore's compliance status relative to RSA Ch. 147-A and the New Hampshire Hazardous Waste Rules, Env-Wm 100-1100.

As a result of the inspection, Moore was issued Letter of Deficiency No. WMD 02-20 ("LOD"). On December 16, 2002, DES conducted a follow-up inspection that confirmed Moore has ceased facility operations, is no longer an active generator of hazardous waste, and has disposed of all previously generated hazardous wastes stored on-site. Based on these facts, DES has determined that Moore has effectively complied with the LOD.

Please complete the enclosed Declassification Request form which will allow DES to render the EPA identification number for your site inactive. Return the completed form to the New Hampshire Department of Environmental Services, Waste Management Division, Reporting and Information Management Section, 6 Hazen Drive, Concord, NH 03301.

If you have any questions regarding this letter, please contact the lead inspector, Eric K. Abrams or John J. Duclos, Supervisor of the Hazardous Waste Compliance Section at (603) 271-2942. Thank you for your cooperation.

Sincerely,

COPY
